

Angel Elevators  
& Escalators

Your Safety  
Our Priority

{Lift your spirits with durable}  
{comfortable & safe elevators}

## OUR COMPANY

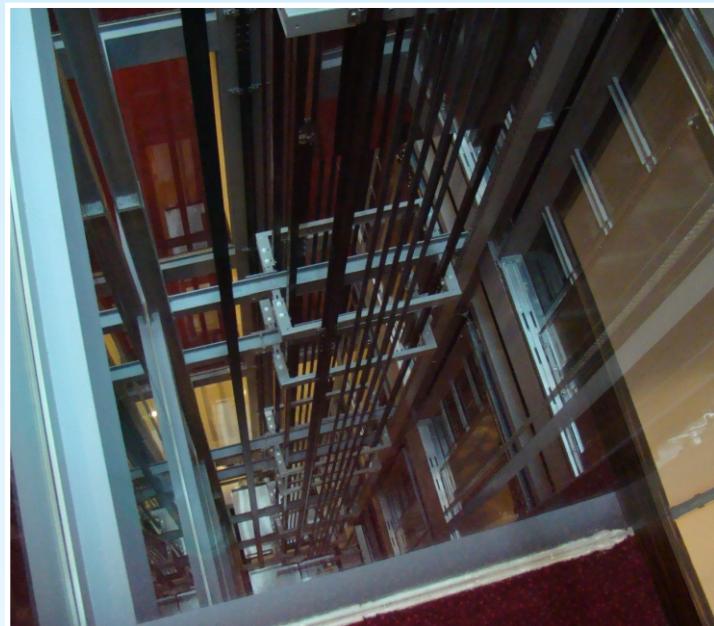

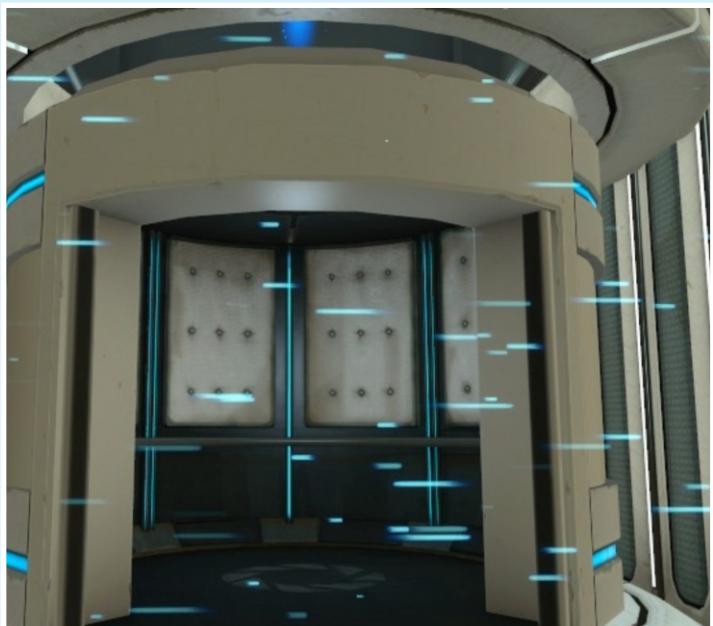

Angel Elevators and Escalators was initially Engal Lifts that saw a modest beginning in the year 2010. With very few maintenance contracts and no installation projects, the company is now maintaining about 150 elevators and has installed more than 100 elevators in Delhi and NCR region.

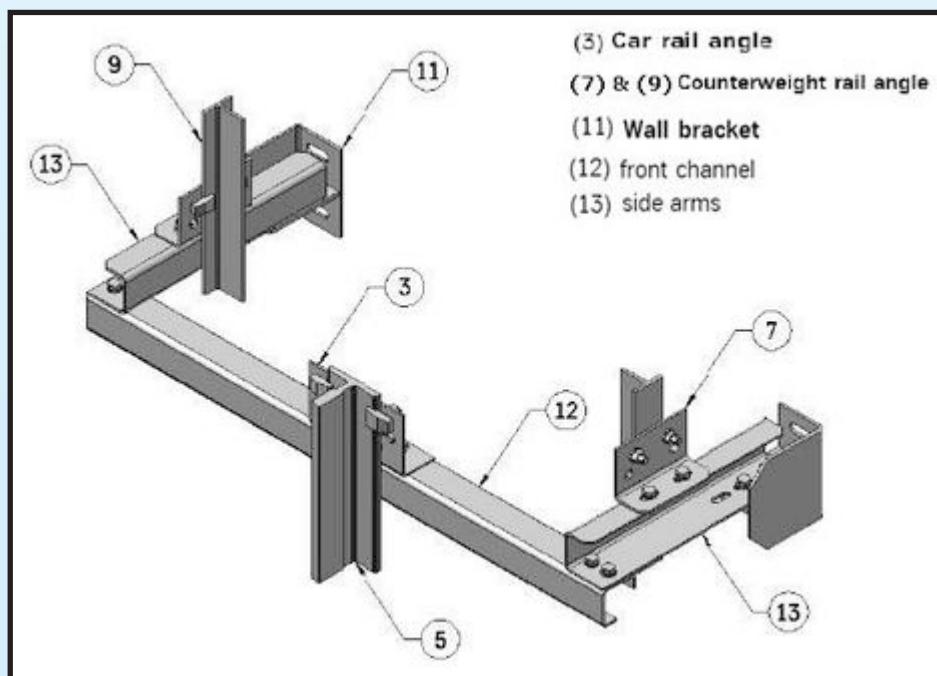

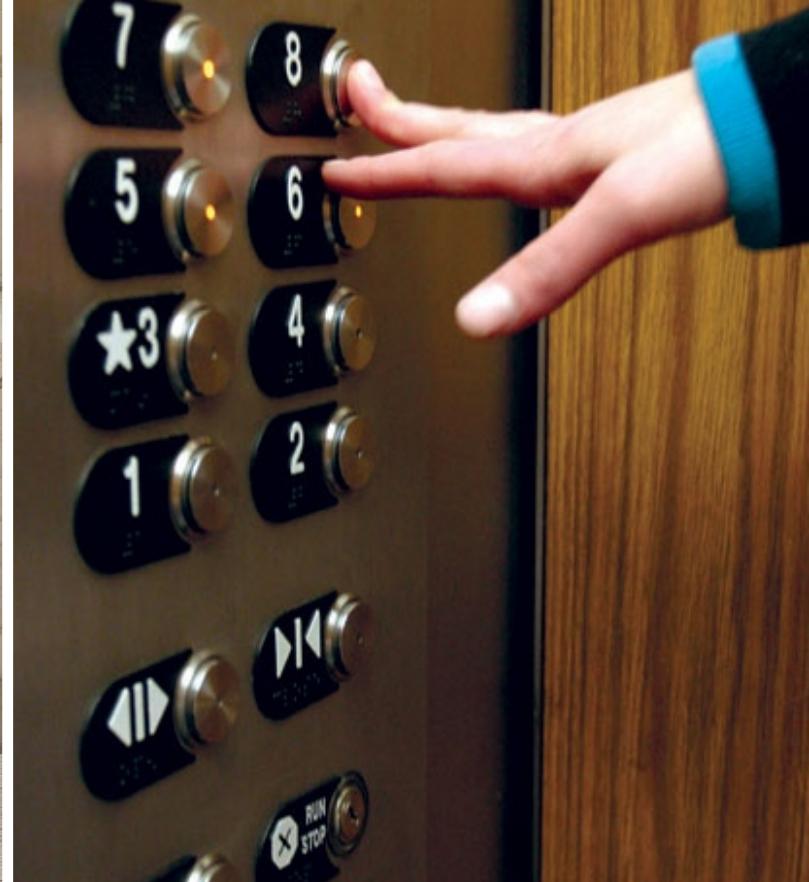

The company was promoted by Mr. **Manender Singh** who holds the prestigious record of working with worlds best elevator company for more than 15 years. Now it has a team of highly qualified and experienced personnel including General Manager Sales and Operations having experience of more than 11 years and having international exposure. The company was started with a vision to provide services that are better than most MNC companies working in India with cost effectiveness and without compromising on global safety procedures and standards.

We at Angel Elevators and Escalators are proud to give the **most valuable and robust products** to our customers by **offering free after-sales service for three years of product purchase** and after that customer can get the annual maintenance contract with us for smooth and effective performance for lifetime.

# MICROPROCESSOR CONTROL SYSTEM

## V3F ADVANTAGES

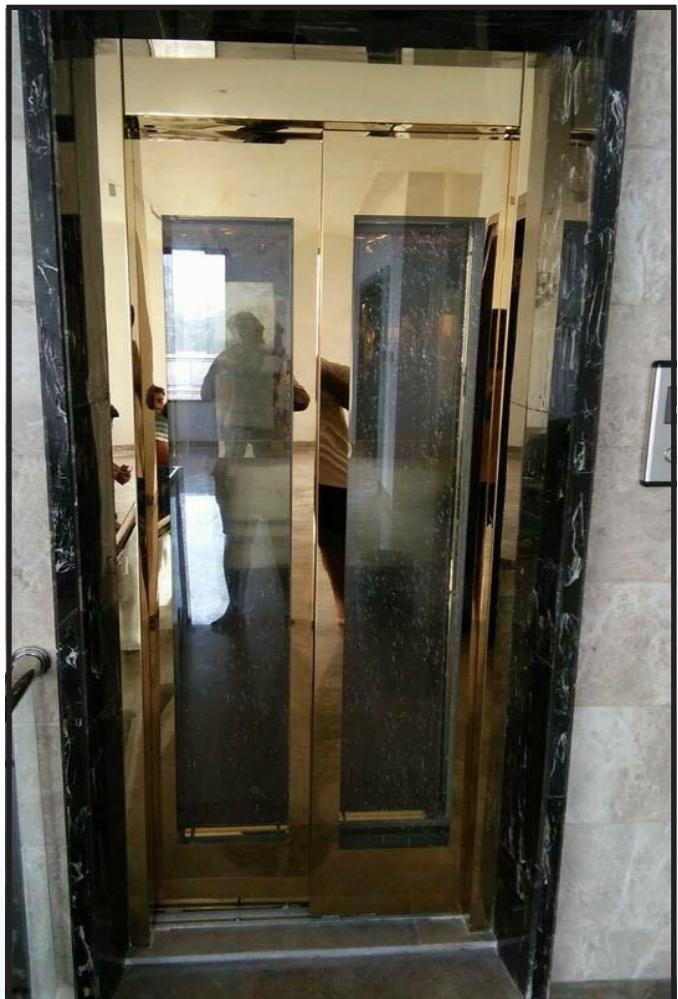

- Jerkless starting & stopping are achieved irrespective of load & precise leveling accuracy.
- Stopping of Elevator is done by perfect electrical breaking unit for minimizing the mechanical wear & tear, maintenance free performance forever.
- Due to smooth acceleration & deceleration, There is less wear & tear in mechanical parts.
- Higher starting torque helps in no motor overheating, high energy saving by lower starting current lower energy consumption & high power factor.
- Different Parameters like current, torques, speed, acceleration and deceleration time can be easily viewed, monitored and controlled on interactive panels.
